Engineers are coming to campus, and this time we’re bringing a Challenge!

What is the “Challenge”?  
A competition where teams of up to five students compete against each other in coding, puzzles and word association games. Put your knowledge and tech expertise against the best your school has to offer! The top teams will not only get bragging rights but also some preeeeetly cool prizes.

I’m in! How do I participate?  
- Assemble a team of 4-5 students from your school. (A team of five students having a CS background is strongly recommended!)
- Pick a team name & team captain
- Register via the form below.  
  ○ Each team member must register individually

Deadline to register is September 14th! We’ll email out a final confirmation to everyone who’s successfully registered a few days before the event.

I still have so many questions!  
Q. Can we have fewer than five members on our team?  
A. We recommend having the maximum number of members – any less and you’ll lose your competitive edge, but you can certainly take part!

Q. Will food be provided?  
A. We’ll have pizza as long as it lasts!

Q. When will our team receive a confirmation about registration?  
A. After the registration deadline, we will reach out to confirm team selection and provide more details.

📅 When?  
September 17, 2019 4:30pm-6:30pm

📍 Where?  
E2-155 EITC
